Facilities & Installation Management Engineering Services

Our Facilities & Installations Management business unit is built on the foundation of two former United States Air Force leaders with over 55 years of diverse experience at Installation, Major Command, and HQ USAF levels. We provide comprehensive program management and consulting services that address the myriad of engineering challenges facing organizations that operate a single facility to those with installations encompassing a vast portfolio of facilities and supporting infrastructure.

Whether drawing upon our in-house multidiscipline engineering, scientific, and technical expertise, or as part of a comprehensive project team equipped to deliver projects and programs from "cradle to grave", **STARGATES** is committed and capable to ensure your needs are delivered on schedule, within budget and ahead of the competition.

STARGATES' formula for success is driven by our ability to provide innovative and strategic thinking and dedicated leadership to federal, public, and private clients through superior service, agile management practices, quality products and enduring client relations.
